

ENVIRONMENTAL ANALYSIS AND PLANNING FOR A TRANSFORMING ARMY

Panel on Lessons Learned and Not Learned

**2003 ITAM Workshop, El Paso, Texas,
Transforming National Environmental Policy Act
Processes for Army Range Modernization Session
21 Aug 2003**

Fielding an Army – Over Time

- ★ Field the force to meet National & Strategic Guidance
- ★ May not be a 1:1 conversion/replacement

Designing an Army...Not Just a Replacement for Existing Units

Results are Revolutionary

Objective Force "Factory to Foxhole"

Objective Force "Space to Mud"

- ★ **Objective Force Characteristics – Responsive, Deployable, Agile, Versatile, Lethal, Survivable, Sustainable**
- ★ **Born Joint, Interagency, & Multi-national - Interdependence**
- ★ **Network Centric**
- ★ **A New Way of War**
 - Dominant situation awareness
 - Enabled by architectures
- ★ **Technology Enabled**
 - Reduced logistics footprint
 - Reachback
- ★ **Capabilities Based**
 - Provides array of capabilities to the combatant commander

Objective Force Era is Now!

What must and can we do to adapt environmental planning and analysis to support all initiatives...?

- Army Conservation Use Buffers
- Army Master Range Plan
- Base Realignment and Closure
- Global Restationing
- Privatization
- Spiral Acquisition
- Transformation to the Objective Force and Enhanced Joint Capability
